RE: MB Docket 04-233

To Whom It May Concern:

K-LOVE, a broadcast service which uses FM translators across the United States, is very beneficial to my community. It plays positive music which encourages listeners to improve their lives.

Although there are other non-commercial radio stations in the Oklahoma City area, this is the only one of which I am aware that broadcasts this particular genre and is national in scope. Without K-LOVE, people in the greater Oklahoma City area would not be able to enjoy this kind of uplifting music while also gaining a greater understanding of national as well as local events.

There are plenty of radio stations that broadcast music and programs that are depressing & discouraging and which encourage anti-social behavior. K-LOVE is combating the effects of this kind of broadcast media by providing a positive message. Considering the many problems faced by our nation, I think it is in the public interest of all communities where K-Love is being broadcast to have the choice be able to retain this valuable service.

For these reasons, I oppose giving priority to LPFM over the current FM translator service.

Sincerely,

Melissa A Hawley
